

Panthers on the Move

The Relocation of Paul VI Catholic High School Campus: What The Community Needs to Know

Q: Where will the new campus be located in Loudoun County?

- The 68-acre property is located on Braddock Road between Riding Center Drive and Doneraile Chase Drive in Loudoun County, Virginia.

Q: When will the new campus be fully operational?

- We are targeting that the new campus will open in Fall 2020.

Q: Will there be transportation options?

- The Diocese is committed to offering bus transportation for students traveling to and from the new campus.
- As part of a pilot effort, roundtrip bus service is currently offered to Fairfax at these locations:
 - St. Theresa's Church in Ashburn
 - Holy Trinity Church in Gainesville
 - Corpus Christi Parish Office in South Riding

Q: Is it anticipated that the majority of the current administration, faculty and staff will make the move to the new location?

- Members of the faculty and staff have responded favorably to the relocation news.
- Sharing in the belief that this relocation provides an extraordinary opportunity for the entire PVI community to grow in every aspect, the continuity of faculty and staff will help continue our growth in "grace and wisdom."

Q: Will there be a substantial tuition increase to offset the costs of building and furnishing the new campus?

- Tuition will not be increased either before or after the move, beyond the customary yearly increase.

Q: Will the intimate size of the classes remain the same?

- Given our commitment to continue to provide our students with a high level college preparatory education, the class sizes will remain the same.
- The building and facilities will be substantially larger to allow for additional classrooms, labs, and a setting for superior 21st century learning environment.

Q: Will the curriculum be affected?

- We anticipate that PVI will continue to maintain its position as one of the Top 50 Catholic High Schools in America by continually reviewing and updating the rigorous academic programs to meet the needs of the 21st century learner.
- Meeting the needs of our student population in the accomplishment of the PVI mission will remain of the highest importance to the school's administration and faculty.
- We will continue our dedication to being a model for providing a Catholic education for students with intellectual disabilities and learning differences. These programs contribute to the special character of PVI.
- The new facilities will ensure that our students benefit from the latest technological advances as part of their high school experience.

Q: How can I continue to follow the journey of PVI to Loudoun County?

- As information becomes available, we will continue to update our current and prospective families at www.paulvi.net.
