

FunBotLab

Robotics & Media Camp

Now Registering Summer Camp - Open to Rising Kindergarten - Rising 8th Grades

Register Today at www.funbotlab.com!

Our Fun Bot program provides a solid foundation of engineering, programming, and movie-making. Using the latest in LEGO® Education technology, campers are encouraged to push the limits of their abilities in each of our four labs: Building Lab, Programming Lab, Challenge Lab, and Digital Media Lab. Campers start the program building from robotics kits and advance to the highest levels of robotics design. All of this mental stimulation is balanced with physical outdoor activities and water play, including time on our inflatable slip-n-slide. What could be more fun than robots and LEGO®?
